(2.) *South West Channel Line*, from Ranganathapura along the lower side of the channel excavated, crossing the Pete Sunedar Chatram road near 3rd mile-stone, then running below the Nazerjunge tank, and then nearly parallel to the just mentioned road to near the Esopankatte bridge where re-crossing the road and running along the east side of it, crosses the Túmkúr road below 4th mile-stone to the south side of Subbappapalyam.

In addition to the lands comprised within the above limits, a width of twenty feet on each side of the line which has been nicked out, for the delivery channel will also be required. The delivery channel line proceeds from the reservoir and running below and somewhat parallel to the south-east catchment channel line, crosses the Bellary road near second mile stone and goes near the house commonly known as General Dobbs' as nicked out. Beyond the end of the nick line, the channel will run under ground between the kitchen and coach house of the said Bungalow down to a stone on the east side of the Cathcart road.
